Information Systems graduate from UPN Veteran Jawa Timur (3.85/4.00 GPA, Top Graduate) with 2 years of experience in technology development and system design. Successfully built and deployed 10+ responsive web applications, maintaining a 100% on-time completion rate and achieving a 90% user acceptance score. Passionate about artificial intelligence (AI) and workflow automation, dedicated to turning complex workflows into practical digital solutions that save operational time.

Jenjang Pendidikan

Universitas Pembangunan Nasional Veteran Jawa Timur - **Surabaya, Indonesia** Sep 2022 - Sep 2026

Bachelor of Information Systems, 3.85/4.00

- Thesis: focused on the design and development of a web-based Human Resource Management Information System
- Achievement: Graduated as the top student in September 2026 cohort

Pengalaman Kerja

Sitezet - **Sidoarjo, Indonesia** Sep 2025 - Sekarang

Full-stack Developer

- Deliver 10+ comprehensive web applications from initial concept to deployment, ensuring a consistent 100% on-time delivery rate that enhances both client retention and the company's reputation for reliability
- Design clean system architectures and reusable UI design systems, accelerating the company's frontend development cycle by 30% across multiple projects.
- Integrate core frontend and backend logic using Laravel, React, TypeScript, and REST APIs to produce high-performance digital products.
- Conduct thorough bug, security, and cross-device testing before release to guarantee stable application performance and smooth user interactions.

PT. Bunyu Tapa Energi - **Jakarta, Indonesia** Nov 2025 - Feb 2026

Full-Stack Developer Freelance

- Built a custom web-based Human Resource Information System (HRIS) using PHP, Laravel, and MySQL, centralizing employee data and cutting manual HR administrative processing time by 70%.
- Worked closely with client stakeholders to gather requirements and deliver tailored HR features, achieving a 90% satisfaction score in User Acceptance Testing (UAT).
- Applied responsive design principles across the platform so employees and management could easily access the system across mobile and desktop devices, boosting daily user adoption.

PT. Vansa Nusa Properti - **Malang, Indonesia** Mar 2025 - Jun 2025

Web Developer Intern

- Developed, maintained, and continuously updated the company's web platforms using Laravel and React to showcase property listings and support daily digital marketing operations.
- Optimized website interface responsiveness, page speed, and content layout across mobile and desktop devices to provide a smoother browsing experience for prospective clients.
- Built internal web-based tools to digitize manual administrative workflows and handled day-to-day technical troubleshooting, saving the team around 5 hours/week in routine operations.

Pengalaman organisasi

Google Development Student Club at UPN Veteran Jawa Timur - **Surabaya, Indonesia** Nov 2022 - Jan 2023

Member

- Collaborated on team-based projects as a System Analyst and UI/UX Designer, mapping user workflows and designing interactive prototypes in Figma to bridge user needs with technical development.
- Actively participated in over 10 interactive workshops and study sessions dedicated to system design, user research, and contemporary product development methodologies, engaging with community members to enhance collaborative skills and industry knowledge.

Keterampilan, Prestasi & pengalaman lain

- **Certification**: Cloud Computing Cohort Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka, Junior Web Programmer-BNSP, Menjadi Google Cloud Engineer, English Proficiency Test (Skor: 457)
- **Achievements** (2023): Led the team as Team Leader in the ITASE 5.0 UI/UX Competition at Institut Teknologi Telkom Purwokerto,

successfully achieving Finalist status through user-centric digital product design.

- **Projects**: SiMagang-website-based information system for managing internships, CV ATS Builder-A web based application for creating ATS-friendly CVs/resumes, featuring AI integration, PATHLY-job application assistant and browser extension that automates repetitive form-filling across major job portals.
- **Soft Skills**: Adaptability, Team Collaboration, Time Management & Prioritization, Leadership, Problem Solving & Results Orientation
- **Hard Skills** : Full- Stack Web Development (PHP, Laravel, JavaScript, TypeScript, React, Python, HTML/ CSS), Database Design (MySQL, PostgreSQL), RESTful API Integration, AI & LLM Integration (OpenAI & Gemini API), System Analysis & Modeling (UML, BPMN, ERD), UI/UX Design & Prototyping
- **Tools & Platforms**: Git & GitHub, Figma, Postman, Google Cloud Platform (GCP), Draw.io, VS Code.
- **Interest**: Generative AI Technology, Autonomous AI Agents & Workflow Automation
